PERSONAL. PROFESSIONAL. ON-THE-GO.

Gain a Dedicated Virtual Meeting Room

Host meetings with up to 125 people in your own customizable meeting room. “Unlock” your room and receive notifications when someone enters for an ad hoc meeting.

Connect Anytime, Anywhere

Meet easily on-the-go with user-friendly mobile apps that deliver a feature-rich high quality experience across devices.

Focus More on Your Meeting

Robust easy-to-use host controls allow you to focus on your meeting objectives and not the technology.

Make Personal Virtual Connections

Leverage high quality video for up to 15 participants and industry-leading HD voice communication to host an online experience that is similar to a face-to-face meeting.

Start More Meetings On Time

Join quickly and easily without dial-in numbers, passcodes or downloads.

Drive Business Productivity

Build relationships, deliver presentations, conduct interviews and host team meetings with a solution that offers a more efficient way to meet.

Work Faster with Convenient One-click Access

Start and join iMeet meetings with one click from your desktop, mobile device or Outlook Toolbar.

Share Content Easily

Share your desktop or various file types from your always available iMeet File Cabinet. Upload files in advance to have all the content you need to be productive at your fingertips.

Enhance Your Connections With Video Conferencing Room System Integration

Easily integrate your video conferencing room system and host a more engaging virtual experience. Leverage iMeet’s high quality audio, universal access, content sharing capabilities and spectacular interface to simulate an in-person meeting with a group.

Capture Your Collaborations

Deliver a complete on-demand experience for guests that could not attend. iMeet Meeting Minutes include video recordings, shared files, transcripts from public chat and the attendee list.

Get Better Acquainted

Deepen your connections with each other by viewing participant profiles and quickly linking to iMeet’s integrated social networking apps.

Connect to Audio However You Want

Connect to audio via toll/toll-free phone or computer (VoIP).
